

Jaime E. FORERO-ROMERO

PERSONAL INFORMATION

EMAIL: je.forero@uniandes.edu.co
WEBSITE: <http://wwwprof.uniandes.edu.co/~je.forero>
GITHUB: github.com/forero
CITIZENSHIP: Colombian
BIRTH DATE: October 14, 1981

RESEARCH INTERESTS

- Cosmology and Galaxy Evolution
- Computational Astrophysics
- The Dark Energy Spectroscopic Instrument (Collaboration Member)

EDUCATION

NOVEMBER 2007 **PhD. Physics**
AUGUST 2005 at the Ecole Normale Supérieure de Lyon (France)

JULY 2005 **M.Sc. Physics (Magistère Interuniversitaire)**
AUGUST 2003 at the Ecole Normale Supérieure (Paris, France)

JULY 2003 **Undergraduate Physics studies (3rd & 4th year)**
AUGUST 2001 at the Instituto Balseiro (Argentina)

JULY 2001 **Undergraduate Physics studies (1st & 2nd year)**
JULY 1999 at the U. Nacional de Colombia

ACADEMIC POSITIONS

PRESENT DAY **Associate Professor**
AUGUST 2015 Physics Department, Universidad de los Andes (Colombia)

JULY 2015 **Assistant Professor**
AUGUST 2012 Physics Department, Universidad de los Andes (Colombia)

JULY 2012 **Gruber Fellow**
OCTOBER 2011 Astronomy Department UC Berkeley (USA)

SEPTEMBER 2011 **Postdoctoral Researcher**
SEPTEMBER 2007 Leibniz Insititute for Astrophysics at Potsdam(Germany)

AUGUST 2007 **Graduate Student**
AUGUST 2006 Ecole Normale Supérieure de Lyon (France)

JULY 2006 **Élève**
SEPTEMBER 2003 Ecole Normale Supérieure (Paris, France)

AUGUST 2003 **Undergraduate Fellow**
AUGUST 2001 Instituto Balseiro (Bariloche, Argentina)

RESEARCH

BIBLIOMETRICS

- Refereed journal articles: 26 published + 1 accepted + 1 submitted (since first paper in 2007).
- Google Scholar statistics. Total Number of Citations: 738. H-index: 14.
- SAO/NASA Astrophysics Data System statistics. Total Number of Citations: 616. H-index: 13.

SELECTED PUBLICATIONS

- *The Local Group in the cosmic web*, **J.E. Forero-Romero**, R. González, ApJ, 799, 1, 2015.
- *Cosmic web alignments with the shape, angular momentum and peculiar velocities of dark matter halos*, **J.E. Forero-Romero**, S. Contreras, N. Padilla, MNRAS, 443, 1090, 2014.
- *The kinematics of the Local Group in a cosmological context*, **J.E. Forero-Romero**, Y. Hoffman, S. Bustamante, S. Gottloeber, G. Yepes, ApJ Letters, 767, 1, 2013
- *Effects of Star Formation Stochasticity on the Ly alpha & Lyman Continuum Emission from Dwarf Galaxies*, **J. E. Forero-Romero** & M. Dijkstra, MNRAS 428, 2163, 2013
- *A Dynamical Classification of the Cosmic Web*. **J.E. Forero-Romero** , Y. Hoffman , S. Gottloeber , A. Klypin, G. Yepes, MNRAS, 396, 1815-1824, 2009

SUPERVISED POSTDOCS

- 2015-2016. Verónica Arias. Dynamics of satellites in the Local Group.

SUPERVISED STUDENTS

2017

- 8 Sebastián Franco Ulloa. Undergraduate thesis in Physics at Universidad de los Andes. *Lattice Boltzmann methods to simulate dark matter.*

2016

- 7 Nicolás Romero Díaz. Undergraduate thesis in Physics at Universidad de los Andes. *Observational evidence of star formation stochasticity in the CALIFA dataset.*
- 6 David Esteban Bernal Neira. Undergraduate thesis in Physics at Universidad de los Andes. *Acotando las velocidades tangenciales de las galaxias satélite de Andrómeda utilizando optimización no lineal.*
- 5 Sergio Hernández Charpak. Undergraduate thesis in Physics at Universidad de los Andes. *Laniakea in a cosmological context.*

2015

- 4 María Camila Remolina Gutiérrez. Undergraduate thesis in Physics at Universidad de los Andes. *The joint effect of outflows and rotation on the Lyman-alpha line.*
- 3 Juan Nicolás Garavito Camargo. Master thesis in Physics at Universidad de los Andes. *The effect of gas bulk rotation on the Lyman-alpha line.*
- 2 Christian Nicanor Poveda Ruiz. Undergraduate thesis in Physics at Universidad de los Andes. *A semi-analytic approach to formation processes in galaxies.*

2014

- 1 Camilo Andrés Rivera Lozano. Undergraduate thesis in Physics at Universidad de los Andes. *Impacto de los parámetros cosmológicos en la estructura a gran escala del Universo.*

GRANTS

- 2017-2021 (coPI) LACEGAL Latin American Chinese European GALaxy Formation network. Funded by MSCA-RISE - Marie Skłodowska-Curie Research and Innovation Staff Exchange (RISE). (1.5 MEuro)
- 2016-2020 (PI) COLCIENCIAS grant to work on the Dark Energy Spectroscopic Instrument. (60 KUSD)
- 2012-2016 (PI) UNIANDES grant given as a startup package to assistant professors (25 KUSD).
- 2011-2012 (PI) IAU Peter and Patricia Gruber Foundation Fellowship. (50K USD).

SERVICE

INTERNATIONAL ORGANIZING COMMITTEES

PRESENT DAY OCTOBER 2015	Coordinator for the Andean Regional Office of Astronomy for Development. http://andean.astro4dev.org/
OCTOBER 2015	Main organizer of the Second <i>Workshop Astronomía en los Andes</i> to convene astronomers in the Andean region. Held in Bogotá, Colombia.
JULY 2013	Main organizer of the First <i>Workshop Astronomía en los Andes</i> to convene astronomers in the Andean region. Held in Bogotá, Colombia.
SEPTEMBER 2011	Co-organizer of the international conference <i>Young and Bright: understanding high redshift structures</i> . Held in Potsdam, Germany.

A SCIENTIST MULTIPLE DIMENSIONS

I build my scientific practice as an astrophysicist around different aspects of being embodied in this world in the current times. This is a constant play between seeding new relationships and institutions; defining new objects of scientific scrutiny; exploring aesthetic dimensions; taking a critical stance of the role of the scientist in semi-industrialized societies; taking care of the other.

OUR PLACE IN THE UNIVERSE

The main driver of my research has been finding our place in the Universe. By *us* I mean our Galaxy, the Milky Way; by *Universe* I mean its material distribution on its largest scales. describing the material structure of our Universe on its largest scales. This had led me to work both in simulated universes and most recently on observational projects that aim at making maps of the universe.

Meeting. Contradictions. The first COCOA to the present. The work in casa-B. Very local involvement with global connections and cosmological feelings. Caring.

Open-systems, critical engineering culture. All the power to the user.

UNIVERSE AESTHETICS

You wouldn't destroy a mountain for profits if you knew that it took billions of years to be built. That's at least what I think. A thought motivated by the experience of living in a country that savages its territory looking for minerals to sell.

That's been my motivation to find out how can you *feel* this knowledge, which by definition means developing an *aesthetic*, a feeling, for the spatial, temporal and energetic scales that made it possible to be here, right now, as human being reading this words, breathing air.

This has taken me to collaborate with artists, art historians, humanists and many people beyond disciplines. This is a quest to *feel the Universe*.

ASTRONOMY FOR A BETTER WORLD

With the support of International Astronomical Union (IAU) in 2015 we started a Regional Office of Astronomy for Development (OAD) for the Andean Region ¹.

The mission of the OAD is to help further the use of astronomy as a tool for development by mobilizing the human and financial resources necessary in order to realize the field's scientific, technological and cultural benefits to society.²

We follow the structure of the central OAD in South Africa and focus our work on the lines of research, education and outreach. The work we are doing is starting to yield results. In my experience the most important outcome has been the constant interrogation to understand what it means at all to use the word *development* and how this word could be in fact relate Cooperating with the Social Sciences and the Humanities.
